Sir:

This paper is filed following a telephone conversation with the Examiner on December 22, 2009. During that conversation the Examiner suggested that allowance of this application would require a terminal disclaimer over U.S. Patent No. 7,368,276. This application and the '276 patent have a common parent. A terminal disclaimer is included with this filing.

If any further information is required, the Examiner is invited to call the undersigned at the number below.

Respectfully submitted,

Dated: December 22, 2009
